**ERNST®  
FLOW INDUSTRIES**

Ernst Flow Industries manufactures a vast array of products specializing in processing and industrial plant equipment. EFI products are also currently in use worldwide in refineries, chemical plants, hospitals and public utility companies.

The company's extensive line of products includes Sight Flow Indicators, Sight Windows, Liquid Level Gauges, Gauge and Sight Glass, Washers and associated accessories.

**EFI  
INFLO  
SIGHT FLOW  
MONITORS**

- Available in Basic (as shown) or High Temperature
- May be mounted in any orientation
- Use for liquid, air or gas - Available in Aluminum, Brass or Stainless Steel

**EFI 5200  
WELDING PAD  
SIGHT  
WINDOWS**

- Available in Carbon Steel, Stainless Steel or Brass
- These models may be welded directly to tank side or cover of tank. Option Lexan® shield available.
- (PVO) Pressure Vessel Quality/ASME coded units available up request.

**EFI  
SERIES 2000  
SIGHT FLOW  
INDICATORS**

- Flanged Connection - Window Type
- Shown above in "Rotor" version with PTFE rotor
- Available in Plain, Drip Tube and Flapper versions
- PTFE gasketing standard in all units

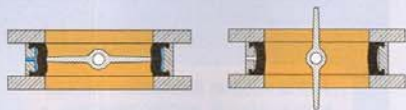

**EFI  
KLEEN-FLOW  
SIGHT FLOW  
INDICATORS**

- Brass or Stainless Steel construction
- Self-cleaning wiper mechanism for glass cylinder
- Unrestricted mounting - installs in any orientation
- Available with or without rotor

**Valves Fight Friction,  
Designed it Out**

es that seal with friction, Posi-flate's unique  
es an inflatable seat to seal with air pressure.  
ss torque and a smaller actuator, resulting in  
he seat automatically compensates for wear,  
life. Some users have reported over 6 million  
ves are still going strong.

Closed, sealed,  
pressurized.

Open, unsealed,  
depressurized.

FRONT COVER**

**Pressure Transmitter**  
monitors refrigeration, HVAC systems

Compact transmitter is designed for pressure monitoring in refrigeration and HVAC applications. The AC-1 features a one-piece brass case and ceramic sensor element that resists most commonly used refrigerants. The R-1 transmitter, for larger systems,

has a dry thin film measuring cell that does not require the use of soft sealing materials that may deteriorate and leak over time. Both units easily install when mounting space is limited.

**Strain Relief Bushings**  
protect many cable styles

Snap-in ratcheting strain relief bushings protect flat, round, or multiple cables at panel entry points. Bushings can be pre-assembled

off-line for final assembly at a later time. Simple fingertip pressure installs them in standard round or double-D holes.
