Test gauge, copper alloy or stainless steel
For low pressure ranges to 600 mbar, class 0.6
Models 610.20 and 630.20, NS 160

Applications
- Precision measurement in laboratories
- High-accuracy pressure measurement
- For gaseous, dry and non-aggressive media
- Model 630.20 also for aggressive media

Special features
- Zero point setting in front
- Special connection location on request
- Low scale ranges from 0 ... 10 mbar

Description
As class 0.6 test gauge series, the model 610.20 and 630.20 capsule pressure gauges are suitable for precision measurements in laboratories. They are based upon the proven capsule measuring system. On pressurisation, the expansion of the capsule element, proportional to the incident pressure, is transmitted to the movement and indicated.

The modular design enables a multitude of combinations of case materials, process connections, nominal sizes and scale ranges. Due to this high variance, the instrument is suitable for use in a wide range of applications within industry.

For mounting in control panels, the capsule pressure gauges can, depending on the process connection, be fitted with a surface mounting flange or with a triangular bezel and mounting bracket.
Standard version

**Design**
EN 837-3

**Nominal size in mm**
160

**Accuracy class**
0.6

**Scale ranges**
0 ... 10 mbar to 0 ... 600 mbar
or all other equivalent vacuum or combined pressure and vacuum ranges

**Pressure limitation**
Steady: Full scale value
Fluctuating: 0.9 x full scale value

**Permissible temperature**
Ambient: -20 ... +60 °C
Medium: ≤ 60 °C

**Temperature effect**
When the temperature of the measuring system deviates from the reference temperature (+20 °C): max. ±0.6 %/10 K of full scale value

**Ingress protection per IEC/EN 60529**
IP54

**Process connection**
Model 610.20: Copper alloy
Model 630.20: Stainless steel
Lower mount or lower back mount
G ½ B (male), SW 22

**Pressure element**
Dual capsule element, stainless steel

**Movement**
Copper alloy, with ball bearing

**Zero point setting**
In front

**Dial**
Aluminium, white, black lettering

**Pointer**
Knife edge pointer, aluminium, black

**Case**
Stainless steel

**Window**
Clear non-splintering plastic

---

**Ring**
Bayonet ring, stainless steel

**Options**
- Other process connection
- Stainless steel movement, with ball bearing
- Overload or vacuum safety with scale ranges < 40 mbar: 3 x full scale value
  scale ranges ≥ 40 mbar: 10 x full scale value
- Panel or surface mounting flange, stainless steel
- Triangular bezel with clamp, stainless steel
- Instrument glass or laminated safety glass window
- Bayonet lock bezel with lead seal
